ABOUT

I am Yash Rana, a B.Tech 3rd-year Computer Science Engineering student with a deep passion for Data Science and Artificial Intelligence. My career goal is to become a proficient Data Scientist and AI/ML Engineer. I possess strong Python programming skills and am enthusiastic about applying them to solve real-world problems. I am actively seeking an internship opportunity where I can contribute meaningfully while continuing to grow as a professional in the data and AI domain.

PROJECT

- **Customer Segment Analysis**
link: <https://github.com/Yash-010/Customer-Segment-Analysis-Clustering->

A machine learning project to segment mall customers into distinct groups based on their demographics and spending behavior. This helps businesses understand different customer types and tailor their marketing strategies effectively.
